

SEASICK DREAM

intro: **G#7** **G7** **C-C7** **F F G** **C-C7** **F F G**

when I woke I was not awake

light from the sun felt so far away

I went up with all of my strength

straight for the sun from the depths I sprang

and I drank from the sea but it opened up and swallowed me

so I sank down deep, now I'm drunken like a seasick dream

in this dream, I am awake I am awake

well when did all of the waves

roll right in and make me their slave

so I went so far away

I didn't look back, I'll come back someday

mama wept & she weeped, she said horizon don't you take him from me

black sails on the sea just carry me until I can be

awake, in this dream I'm awa-a-a-ake
