

# LOVE

oh tumblin' leaf, you fly so high  
 let's go chasin' butterflies  
 we follow clouds (echo) up in the air (echo)  
 painting pictures of fairy tales

oh summer sun, hold me in your arms  
 I love you mother nature, your sunny fields of green  
 I love your taste of freedom, your singing in the wind  
 I love (I love) breathin' deeply to smell your summer rain  
 I love (I love) when you kiss me with your sunlight on my face  
 I love (I love)

I lay my head under the tree  
 how many seasons he might have seen  
 the golden fields (echo) they softly bow (echo)  
 and seem to whisper a lullaby

like a warm embrace, oh you little bird  
 tell the whole wide world that I save my love for her
